Hello, i tried to make some changes to make the play longer , please don't mind and make changes you too and send to all of us... some of the parts were unreadable so please correct it...

1st scene

Aboo - vomiting person

Ismael - Soldier

Keswan - cleaner

Upashna - nightingale

Emily - nurse

1) History by Keswan:

In 1854, poor care was being given to patients. Hygiene & sanitation rules hardly existed and most nurses were uneducated and unqualified. They were called nurses as long as they knew how to wash their hands. During the Crimean war, the secretary of war request Florence Nightingale to handle the work of the hospital at Scutari in Turkey as most of the soldiers were lying in bed wounded or ill. Nightingale came along with 38 trained nurses.

2) Aboo vomiting.....

3) Upashna and Emily come and take good care of Aboo.

Keswan:

Other soldiers were urinating and vomiting near the wounded and ill. There was no sanitation. Florence found the military hospital in an unhygienic condition and began to establish cleanliness.

4) Keswan clean the floor.

Aboo:

No clean food, no clean clothes on the patients and no proper bandages. So Florence arranged for proper and effective healing conditions.

5) Upashna and Emily walked to Ismael.

Emily:

Are you fine sir? How are you feeling?

Ismael:

I'm in pain, my arm is wounded and i'm feeling very weak.

Upashna:

Don't worry sir, we'll take care of you and help you to be good health again.

6) Keswan take a seat near the soldier and he slowly fall asleep.

Upashna:

I've come to this hospital and found no sanitation and hygiene. Wounded and ill soldiers are dying as there's no fresh water, no fresh food and no clean clothes. Mice and cockroaches are moving free around, so I'm going to take action to rectify the situation in order to promote good health.

7) Emily get the lamp, switch it on and hand it to Upashna. Both of them move around near the sleeping people.

Aboo: { explanation }

8) The lamp is switched off.

2nd scene:

Aboo: teller

Emily: Nurse/ doctor's assistant

Upashna and Keswan: Qualified nurses

Poonam: Patient

Aboo: Now we are presenting the contemporary nursing.....

1) Keswan and Upashna fetch Poonam with care. They make her sit comfortably on the bed.

Aboo: The way of nursing has improved to large extent due to qualified nurses, proper set up of the hospital and technology.

2) Ismael enters and Emily goes to Poonam.

Emily: Hello Mam, the doctor has come to see you. Are you fine?

Poonam: Hello, I'm not sure and I want to do a check up.

Ismael: Good morning mam, you seem to be in good health. So, let's take your vital, my nurse will take your Blood Pressure and we'll do your ecography.

3) Emily notes the blood pressure and show Ismael.

4) The ecography is done.

Aboo/ Keswan :

The history of nursing teaches how and why the way of nursing people has changed. Today nursing is a profession and is much more than looking after the needs of a patient.

5) Poonam is taken carefully out of the bed and everyone line in front.

Everybody: We are proud to choose nursing as a career.

Everybody in class clap
hands.....😊
